To: 7408.

Memo No. 120.

From: 7404.

26th March, 1945.

1. The attached envelope, which contained various reports from 7496, was sent to us by 7410, who received it together with another envelope, also marked "England", containing an undeveloped film message from 7496. 7410 does not know how these envelopes reached him (I believe they were put through his letter-box).

2. This is not, of course, how these reports should arrive, and I should be grateful if you would let me have your comments as to how you think they could have been sent in this way.

P.S. Jane Means 483 has just arrived & explains this.
